## The ACT High School CPR and Defibrillator Program Alberta

### **CPR Program – Alberta**

ACT has achieved **100%** of its provincial goal in Alberta. Program set-up is complete and ACT is now focusing our efforts on sustainability.

- **524,000+** youth trained to date through high school program;
- **315** high schools across Alberta have established the program;
- **45,000** students trained by their high school teachers every year;
- **9,600** durable mannequins donated to schools by ACT and partners;
- **1,000+** teachers trained to date as CPR instructors for their students.

### **ACT's provincial partners**

Alberta Learning  
STARS Air Ambulance

### **About the ACT Foundation**

The ACT Foundation is the national charitable organization establishing **FREE** CPR and defibrillator training programs in Canadian high schools. The program is built on ACT's award-winning community-based model of partnerships and support—ACT raises funds to donate program start-up resources (e.g. mannequins, AED training units, teacher training, and defibrillators) to schools, and guides schools in program set-up to ensure long-term sustainability. ACT's health partners who are committed to bringing the program to high schools across Alberta and throughout Canada are AstraZeneca Canada, Sanofi Canada, and Amgen Canada.
