STUDENTS EMPOWERED TO SAVE LIVES – Recently 30 CPR (Cardiopulmonary Resuscitation) mannequins, four automated external defibrillators and all of the required curriculum materials were donated to Banting Memorial High School in Alliston, courtesy of the Alliston Lions Club and the Alliston Rotary. These tools will benefit more than 400 Grade 9 students each year. Although students at Banting have been trained in this life-saving technique for the past 15-years, the new equipment will make training easier (and probably more fun). Students in Mrs. Fafrate's Grade 9 Phys. Ed. class demonstrated the life saving CPR skills they've learned in front of Rotary and Lions Club members in the school gym Friday. Pictured: Ted Boston and Jennifer McCague (president) representing the Alliston Lions and Carol Jones and Patricia Middlebrook representing the Alliston Rotary pose with students and Banting staff members.
